

WYPALL® REACH™ CENTREFEED SYSTEM

WYPALL®
BRAND

Professional wiping paper

Creating a more hygienic place to shop

Regularly disinfecting and cleaning surfaces which are touched frequently - such as trolleys, door handles and payment terminals - is **key to help break the chain of germ transmission.**

In the span of 24 hours, the average adult touches 7,200 surfaces and touches their face 552 times.¹

A study conducted by Dr. Charles Gerba on shopping trolleys found E. coli on almost half the shopping trolleys tested. These germs may be transferred from the trolley to your hands, to the products you select and then to the face, if the hands touch it.²

Did you know?

*Undispensed exposed wiping rolls are typically handled **70 times***

Give your staff and customers greater peace of mind by providing proven, hygienic cleaning solutions to help overcome germ transfer and support a safe shopping experience.

**THE RIGHT TOOL
FOR EVERY TASK**

WYPALL®
